

Octavian Yuen

Alameda, CA | 510-846-5269 | octyuen@berkeley.edu | [linkedin.com/in/octavian-yuen/](https://www.linkedin.com/in/octavian-yuen/)

EDUCATION

University of California, Berkeley <i>Bachelor of Arts in Applied Mathematics and Bachelor of Arts in Economics</i>	Berkeley, CA May 2028
---	--------------------------

EXPERIENCE

Major League Baseball <i>Take the Field Program Attendee</i>	Orlando, FL December 2025
--	------------------------------

Alameda Merchants Baseball Club <i>Baseball Operations Intern</i>	Alameda, CA June 2025 - Present
---	------------------------------------

- Analyzed and organized post-game TrackMan data to generate performance reports, filtering over 50 data points to highlight key player metrics and trends.
- Identified over 150 ceiling prospects to streamline scouting operations, allowing the Head of Recruitment to access player profiles, stats, locations, and contact details during outreach and travel.

Sports Analytics Group at Berkeley <i>Head of Conference</i>	Berkeley, CA June 2025 - Present
--	-------------------------------------

- Planned a Sports Analytics Conference at Berkeley for Spring 2026 with an MLB keynote speaker, a panel of academic professors, and a student research showcase.

<i>Senior Analyst - Bleacher Report</i>	Sept. 2025 - Dec. 2025
---	------------------------

- Researched competitor platforms (Twitch, YouTube Live) to identify strengths, gaps, and opportunities relevant to Bleacher Report Creator Studio's livestream experience, as well as audited the user journey to highlight UX bottlenecks

<i>Project Analyst - Cal</i>	Sept. 2024 - Dec. 2024
------------------------------	------------------------

- Architected a centralized AWS pipeline for Cal Football, automating the integration of IoT sensor data (GPS, Force Plate) for 100+ athletes.
- Developed Tableau and Python-based visualizations to translate data into actionable KPIs.

Cal Softball <i>Data Analyst</i>	Berkeley, CA Jan 2026 - Present
--	------------------------------------

- Improved game strategy by analyzing opponent data to identify hitting tendencies and vulnerabilities
- Delivered scouting reports and heat maps that enabled data-driven pitching decisions and in-game adjustments

UC Berkeley Department of Economics <i>Course Developer - "Intro to Sports Analytics and Sports Economics"</i>	Berkeley, CA Sept. 2025 - Present
--	--------------------------------------

- Developed applied case studies translating sports economics and analytics concepts into real-world MLB decision-making scenarios for undergraduate instruction.

California District 4 Umpire's Association <i>Volunteer Umpire</i>	Alameda, CA March 2021 - Present
--	-------------------------------------

PROJECTS

Amateur Baseball Pitcher Archetype Identification <i>Python, Scikit-Learn</i>	Sept 2025 - Mar. 2026
--	-----------------------

- Engineered an unsupervised pitcher profiling framework using Non-Negative Matrix Factorization (NMF) on TrackMan pitch-tracking data from the 2025 California Collegiate League.
- Demonstrated transferability of a classical matrix factorization technique across sports analytics domains, with applications to hitting, defensive positioning, and zone usage profiling.
- Selected for SABR Analytics Conference 2026 poster presentation.

MLB Salary Arbitration Modeling <i>SQL, Stats</i>	Feb. 2026 - Present
--	---------------------

- Built a regression-based model to project arbitration salaries, incorporating **uncertainty intervals** based on historical "comparable" player precedents.
- Utilized Game Theory to model bargaining leverage between clubs and agents, simulating optimal "filing" numbers.

SKILLS

Languages: Python (Pandas, NumPy, Scikit-Learn), R, SQL (PostgreSQL, BigQuery), Java, C++
Tools & Stats: Trackman, Synergy, AWS, Tableau, Matrix Algebra, Bayesian Inference, Regression Modeling
Concepts: Uncertainty Quantification, Signal-to-Noise Analysis, Machine Learning, Game Theory
